Re: **Letter of Recommendation for Ken Howard**

To whom it may concern,

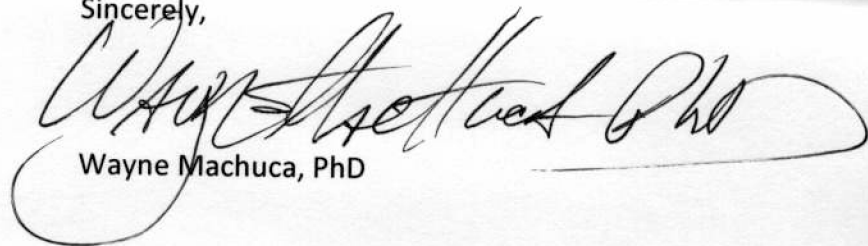

Please accept this letter of recommendation for Ken Howard. I have had the opportunity to work with Mr. Howard in several of our advanced web design and programming classes. All throughout, he has exhibited a clear and mature understanding of materials, specifically in classes such as Perl, XML, PHP and MySQL.

Additionally, Mr. Howard has shown a willingness to test new theories and concepts above and beyond the requirements of the class. He tested new material before it was included in course work. And, he is able to associate known information in one area to apply new solutions in another. An example of this took place in our CS122PRL (Perl) course where he adapted a PHP solution to solve a Perl problem.

Mr. Howard is a hard working, multi-tasking student and comes highly recommended. I am confident that he will be a successful addition to your organization.

If you have any additional questions, please feel free to contact me at the address below or by email at machucaw@mhcc.edu.

Sincerely,

Wayne Machuca, PhD
